

This line should print 4" long

As always, make sure the pdf prints at 100%
"Page Scaling: None"

If you make something from this I'd love to see a photo - go to janelwashere.com or email janelwashere@gmail.com

Bear in mind that 1/4" is LESS than half the width of the average sewing machine presser foot. If in doubt use a smaller seam allowance.
